

Vista-Tec Faceshield

Feather-light protective faceshield

Vista-Tec provides full facial protection (nose, mouth, eyes) and an excellent optical view. It's comfortable to wear and elegantly designed; in addition to this, it does not hinder communication with the patient.

The protective shields, which are made of the highest quality transparent (environment-friendly) plastic, are scratch resistant, antiglare, antifog and do not yellow when subjected to daylight. They can be used several times as they can be cleaned easily with the aid of Polydentia Clean. Shields are also available separately as refills.

The slim frame is flexible, light and can be worn comfortably all day. It's available in white and five delicate translucent colors: transparent, yellow, blue, pink and green.

The clip integrated into the frame allows easy fixing of the protective shield. Once inserted on the frame, the shield is angle and height adjustable.

Patented design

Vista-Tec ultra light Eyeshield

Feather-light protective eyeshield

The shields are also available in the eyewear version suitable for patients as well. The special design of these shields provides comfortable and complete protection when worn with surgical masks.

Like the longer Vista-Tec shields, these eyeshields assure clear visibility, prevent fogging, glare and scratching. They can be cleaned with Polydentia Clean, and are also available separately as refills.

Vista-Tec Orange shields

Perfect protection from high-intensity light

Protect your eyes from dangerous blue light frequencies coming from curing lights. The high quality of these orange-tinted shields allows an excellent optical view, while keeping the eyes safe. These shields are easily fixed on Vista-Tec frames or Clipon to assure a comfortable, lightweight and effective barrier against high-intensity light emitted when using curing lights. Available as full-face shield and as eyeshield, which is also suitable to protect patients. These visors are easily cleaned with Polydentia Clean.

RE-USABLE SHIELDS!

Polydentia Clean

Always a clear view

Unique eyewear cleaning solution provides effective though gentle cleanse & care of Vista-Tec shields and frames. Gentle on materials but hard on dirt and bacteria: it successfully removes dust, grease, oils, etc. Spray directly on shields or on a soft tissue and polish. No need to rinse. The liquid evaporates quickly leaving no residues or streaks. This gentle but efficacious cleanup enhances the duration of your Vista-Tec. Practical pump spray bottle of 125 ml (4.22 oz.) environment and ozone friendly, provides more efficient dosing compared to pre-moistened wipes, and longer product's shelf-life. It has an anti-static effect, is adapt for all surfaces, also suitable to clean spectacles and protective glasses. Polydentia Clean is a lightly scented lotion, with a minimal alcohol content and ensures a high cleaning power.

NEW

Autoclavable Vista-Tec

Sterilizable black frame

The original Vista-Tec frame is now available in a very resistant, functional and elegant black version, autoclavable and thermodisinfectable. Ideal to be combined with faceshields and eyeshields.

Vista-Tec Eyeshields 10 eyeshields	REF 5619

Vista-Tec

ORIGINAL  ultra light

Over the last years, treatment of patients has created a growing necessity for the protection of personnel. Covering the face, eyes and mouth to create a safe barrier against soils when carrying out examinations has become fundamental.

The different protective shields and glasses proposed by the market often assure protection but obstruct communication between practitioner and patient. The examiner's facial expression and appearance can be disturbed by some shields which are a hindrance to creating a relaxed environment for the patient who often needs reassurance.

Ultimately safety and effective communication with the patient have to be combined with the consultant's well-being and comfort. When wearing protective shields and glasses both concentration and excellent optical view must be guaranteed.

In order to provide optimum protection, comfort and a fashionable look, Polydentia has been proposing Vista-Tec feather-light protective shields since 1989. Thanks to Vista-Tec shields, you'll find the perfect protection suitable for all your needs!
